f) Impairment of Assets

The carrying amounts of assets are reviewed at each balance sheet date to ascertain impairment based on internal & external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the assets, net selling price and value in use. The management is of the opinion that there was no impairment in the value of the assets.

g) Treatment of Investments and Programme Income

As per policy decision, the interest earned from term deposits and net proceeds from programmes/ seminars/ workshops and hostel accounts are transferred to XIME Building Funds directly.

h) Employee Welfare Measures

The institute is regularly depositing the Provident Fund and ESI dues as applicable. The Gratuity policy is that the same will be paid as and when the liability arises.

i) Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognised when the assessee has a present obligation as a result of a past event, for which it is probable that a cash outflow will be required and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to its present value and are determined based on management estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the correct management estimates.

Contingent Liabilities are disclosed when the assessee has a possible obligation or a present obligation and it is probable that a cash flow will not be required to settle the obligation.
